Morgan’s StressBlaster

0–0–1

Liquid Micronutrients
With FulvicBlaster and Seaweed Extract

For In-furrow, Transplant Solution, Foliar, and Fertigation on All Crops
Compatible with most insecticides, herbicides, and fertilizers.

2.5 Gallons (9.46 L)
Net Weight 23.3 lbs (11.0 kg)
Morgan’s StressBlaster 0-0-1

RATE OF APPLICATION

IN-FURROW
Corn, Soybeans, Wheat: 1 to 2 qts/ac with 3 to 5 gals/ac of solution.
Potatoes: 2 to 4 qts/ac with 5 to 20 gals of solution.

TRANSPLANT
All: 2 to 4 qts/100 gals Transplant Solution.

FOLIAR
Fruits & Berries: 1 to 2 qts/ac at 30% Bloom, repeat 14 days later, again at Early Fruit development, and/or at Post-Harvest.
Vegetables: 1 to 2 qts/ac at 3 to 5 leaf stage, Repeat 14 to 21 days later.
For best coverage, recommend applying with a minimum of 15 gallons spray solution per acre. To ensure good uptake of nutrients when applying foliar, recommend not applying during the heat of the day nor in very high or very low humidity conditions.
*These are general product recommendations. Please consult with your Morgan Composting agronomist for specific fertility recommendations.
*Conduct a jar test before mixing with pesticides and other fertilizers to confirm physical compatibility.
*Protect from freezing.
*Shake well before use.

Use only as directed
